Profile: Hiroaki Iwasa

Hiroaki Iwasa is a holistic architect with a 30 year career designing a variety of projects, from architecture to products to landscapes. He founded HIROAKI IWASA ARCHITECTS WORKSHOP in Tokyo, where he is the chief architect and holds the qualification of a first-class architect. In various projects, he grasps the situation from multiple perspectives and deep insight, approaches the issues honestly from the essential point of view, He has designed and realized rich environments that awaken the five human senses and satisfy a sense of well-being within landscapes, historical and cultural backgrounds. His various works, which emphasize the five human senses, have been realized in Japan and overseas, and have been praised in many fields and received numerous awards.
